Education

B.tech in Computer Science and Engineering

Integral University • Lucknow, Uttar Pradesh

01/2024

Secured 71.1% in B.Tech (Computer Science and Engineering) from Integral University, Lucknow

Diploma in Civil Engineering

BTEUP • Lucknow, Uttar Pradesh

11/2020

Achieved 78.24% in Diploma (Civil Engineering) from BTEUP, Lucknow

Project

1) Project Title : Benefits Document Management System.

Description : Built a full-stack web application to manage benefit documents. Users can add, edit, and delete rich-text content and PDF files. Used REST APIs for data transfer, stored records in PostgreSQL, and applied Angular features for secure and dynamic UI. Technologies : Angular, Node.js, Express.js, PostgreSQL, Summernote.

2) Project Title : Budget Planner Application.

Description : Created a user-friendly Budget Planner web application using Angular. This app helps users manage their monthly income, expenses, and savings in an organized way. It includes features like real-time budget updates, easy input forms, and a clean design for better user experience. Technologies: Angular, TypeScript, HTML, CSS, JavaScript.
